Christian City Care

Care at Christmas

Corporate Sponsorship

Christmas should be a time of joy and sharing, but for many in our community it can become a time of stress and increased hardship.

Care at Christmas Parcels are supplied by Christian City Care to families with children who experience hardship and are unable to afford Christmas celebrations.

Case Studies:

A struggling family has been working hard, with the help of counselling, to change their life after years of wrong choices. The legacy of earlier difficult years together with the financial struggles of unemployment, has meant Christmas celebrations are not affordable.

A Care at Christmas parcel helps provide the encouragement to keep growing & making positive changes.

A single mum and her children, resettling after leaving a physically abusive relationship, find the going tough. The children have missed school, and because of the mother's problems, the older children carry much of the responsibility in running the household. These children are missing out on their childhood. Life is tough.

Some Christmas joy for these children is beyond their imagination.

Every year we have many more families coming to us than we can possibly help with a Care at Christmas parcel. Most are families of four.

A Care at Christmas parcel consists of a basic set of everyday staples plus food to prepare a Christmas Dinner. We also provide two children's gifts appropriate to the age and gender of the children.

The value of a Care at Christmas parcel is \$125.

Your sponsorship will help us to extend our services to more families.
